L17-427-1 | Accreditation #85368

Sample FLURISH-ISH PEN-500MG-PENS-PEACH RINGZ-

Sample ID SD5468512365

Tested for FLURISH GROUP

Sampled -

Received JAN 11 2024

Matrix Concentrate (Inhalable Cannabis Good)

Reported JAN 11, 2024

Laboratory note: The estimated concentration of the unknown peak in the sample is 0.40%. Currently PharmLabs laboratory cannot confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated CB products) from which we believe to be either (+)-8-THC or (-)-8-THC. At this time there are no reference standards available for (+)-8-THC, (-)-8-THC is a different compound from the main (-)-8-THC cannabinoid and therefore, these two compounds may have different effects. Using the most advanced instruments and techniques available, the separation of (+)-8-THC and (-)-8-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)-8-THC and (-)-8-THC with the majority, if not all, of the concentration being (+)-8-THC. Total CB-THC is estimated to be 3.80%.

CANX - Cannabinoids Analysis

*This report shall not be reproduced except in full, without the written approval of the lab. This report is for informational purposes only and is not to be used for diagnosis, treatment or any other purpose. Results are only for samples and batches indicated. Results are reported on a "as received" basis, unless indicated otherwise. When a Pass/Fail status is required, that status is intended to be in accordance with federal, state and local laws which are required for the customer to be in compliance. The measurement of uncertainty is not included in the Pass/Fail evaluation unless explicitly required by federal, state or local laws and has been reported on the certificate of analysis. Measurement of uncertainty is available upon request.
